Black Falcon Cruise Terminal

Ships that embark or call at CruisePort Boston's Black Falcon Cruise Terminal enhance the pre- and post-cruise experience for their passengers. The facility, built to serve today's discriminating cruise lines and their clients, is minutes from award-winning Logan International Airport, the diverse recreational options of downtown Boston, and the interstate highway system that connects Boston to New England and the wider United States. A year-round facility, it can handle up to five ships simultaneously and has generous accommodations for ticketing, baggage handling, and customs inspections. Passenger amenities include an enclosed self-leveling gangway, three lounges, escalator and elevator service, luggage lockers, restrooms, protected drop off areas, public telephones, and secure long-term parking.

EXTRAORDINARY ITINERARIES

The New Atlantic Frontier

It's the most exciting 7-14 day itinerary on the cruise scene today, providing the natural beauty of an untouched wilderness with the culture and charm of Europe. ⚓ Passengers embark from Boston, arriving through award-winning Logan International Airport and choosing from pre- and post-cruise packages designed to satisfy a range of interests and schedules.

Once underway, passengers are within a day's voyage of southeastern Canada and its unique ports-of-call: ⚓ Saint John, the largest and oldest city in New Brunswick; ⚓ Lunenburg, Nova Scotia, founded in 1753; ⚓ Halifax, Nova Scotia's capital city; Louisbourg, on the Island of Cape Breton, evocative of 18th century France; ⚓ multicultural and cosmopolitan Sydney; the Scottish-flavored Baddeck, a small summer resort town; ⚓ Charlottetown, the capital of Prince Edward Island; ⚓ the natural wonders of Newfoundland and Viking artifacts at L'Anse aux Meadows; ⚓ the diverse marine environment and wildlife of Labrador; ⚓ the European charm of Quebec City; ⚓ and the allure of Montreal, the second largest French-speaking city in the world

Bermuda

This lovely and popular island resort is perfectly situated for a five night or more cruise from Boston. ⚓ Because CruisePort Boston serves the entire New England region as well as the Mid-Atlantic states, this is an extremely attractive cruise opportunity for the local traveler, whether opting to arrive in Boston by car, train, or plane. ⚓ Since Boston offers comparable sailing time with a New York embarkation, this is also a possibility for passengers from beyond the New England market.

Europe/Transatlantic

Boston has traditionally been an embarkation point for transatlantic travel and its position a day closer to Europe than any other US port makes it the best choice for this itinerary. ⚓ The Boston/Southampton connection's grandeur is just as appealing to discriminating passengers today as it was to the travelers of yesteryear.

Cruises to Nowhere

Drawing from the New England region, Cruises to Nowhere beckon the first-time cruiser as well as the passenger who is long on interest but short on time. ⚓ Boston's Black Falcon Cruise Terminal, easily reached by road, rail, and air, is a comfortable and convenient embarkation point for these multi-day sojourns on the sea.
